

# Home Education 2025-26 at Bore Place

**Connect with nature | Explore creativity | Build confidence**  
**Gain a nationally-recognised qualification**

34-week Level 1 Award programmes designed specifically for home educated learners, delivered on our 500-acre estate

At Bore Place, we provide small-group, supportive learning experiences where young people can gain nationally recognised qualifications (accredited by LASER Learning Awards) while learning in a practical, outdoor environment. Designed especially for home educated learners, these programmes encourage independence and confidence, and balance structure with creative learning.

## Level 1 Award in Art

Professional artist-led tuition will guide learners to explore a range of creative techniques and media including drawing, painting, clay, printmaking and mosaics. Learners will develop their own ideas and build a portfolio that reflects their individual creative journey. The programme culminates in a celebratory exhibition of work.

- Thursdays: 10am-12pm (11-14 yrs) and 1pm-3pm (15-18 yrs)
- Class size: Six learners
- Cost: £28 per week

## Level 1 Award in Land-based Studies

This practical qualification introduces learners to land-based skills including conservation, habitat management, food growing, and sustainable land care. Students develop hands-on skills, teamwork, and an understanding of how people and nature can thrive together.

- Wednesdays: 10am-12pm (11-14 yrs) and 1pm-3pm (15-18 yrs)
- Class size: Six learners
- Cost: £28 per week

## Benefits of a 34-week programme at Bore Place:

- Gain a nationally-recognised qualification
- Build confidence and independence
- Develop practical and creative skills
- Work collaboratively in small groups
- Spend meaningful time outdoors
